

Employment Certificate

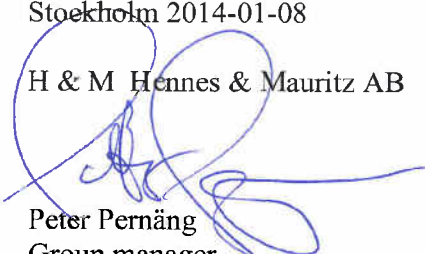

Erik Sundell, 19870917-8571, got employed at Hennes & Mauritz AB 2011-09-05.

Erik started he's career as a developer at the Finance and Accounting department within the IT organization. Among other things, he was engaged to participate in developing a new system that consolidated a huge excel spreadsheet into a database with a web UI for data presentation. The project was a great success as it increased the effectiveness of the users immensely.

In May 2013 Erik joined the Buying and Production department within the IT organization. Since then he has worked as a developer in team of 8 people, creating a visual planning tool that fashion designers can use to plan and develop their garments. The project has required extremely sophisticated front end development to keep the end users satisfied.
