PERSONAL STATEMENT

I am a versatile, hands-on 26 years old developer with 5 years of experience working on a variety of small projects from conception to delivery. I am conversant in a wide range of technologies – most notably C# and web development – and follow the latest industry trends with great interest. My approach is methodical but creative, and I always look to code to the highest standards possible. I am a confident communicator and I am comfortable working either independently or as part of a team.
